

# BELCLARE

S H E E P   S O C I E T Y

## Premier Sale

Kilkenny Mart, Cillin Hill  
on Tuesday 4th August 2015  
Show at 12 noon, Sale at 2pm  
Judge: Sheena McCarthy  
Ballybeg Buttevant, Co. Cork

*Because you CAN have Quality with Quantity*

**Belclare Sheep Society**  
**Website: [www.belclaresheep.org](http://www.belclaresheep.org)**

# CONDITIONS OF SALE

1. The highest bidder to be the purchaser, subject to paragraph 3, and if any dispute should arise between two or more bidders then the lot in dispute to be put up again and re-sold, or the auctioneer may declare the purchaser.
2. Purchaser to give their names and place of abode and pay a deposit of 25% of the whole of the purchase money, in part payment of each lot, immediately upon the fall of the hammer if required.
3. Sheep to be sold in euros and fees to be charged to purchasers.
4. The sellers and the auctioneers hereby excluded have described the sheep to the best of their ability and knowledge, any express or implied conditions, warranty or representation statutory or otherwise.
5. Sheep will be sold in the order in which they appear in the catalogue subject to the right of the Auctioneers, in consultation with the authorised representatives of the Belclare Sheep Society, to offer the prize winners otherwise.

**Purchasers are advised to inspect prior to purchasing.**

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

Sheep Ireland EuroStars

### Background

Sheep Ireland was established "To achieve the greatest possible improvement, from genetic and other factors, in the profitability of the national sheep flock for the benefit of the Irish farmers and sheep industry".

### How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

### Catalogue Explanation

Animal
IE043743104419D
HUI14001
Greenhill Van The Man
DOB: 25-Jan-2014
Texel

### EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed
- **Five star** represents the **top 20%** of the breed
- The higher the stars, the higher the predicted profitability of that animal

### Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

### Acc % (Accuracy%)

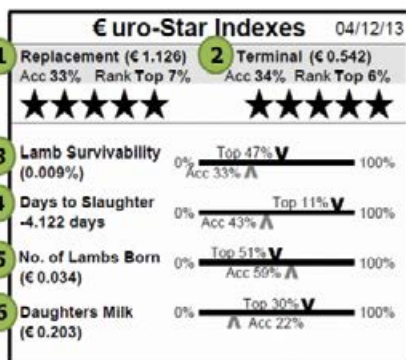

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example above)

#### Acc % parameters

<b>V.Poor</b> , 0% - 14%	<b>Poor</b> , 15% - 24%
<b>Fair</b> , 25% - 34%	<b>Good</b> , 35% - 49%
<b>V.Good</b> , 50% and above	

### Indexes & Traits

- 1) **Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) **Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) **Days to slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 4) **Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 5) **No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed
- 6) **Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed

### RamSearch.ie

The Sheep Ireland Online Ram search is also available at [ramsearch.ie](http://ramsearch.ie); you can use this tool to get the most up to date evaluations for a ram, to search for rams by county, breed and current evaluation ratings.

### Contact Us

To Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit [www.sheep.ie](http://www.sheep.ie), E-mail [query@sheep.ie](mailto:query@sheep.ie), or Call us on 1850 601 901
